Dress - Black and White

Its Simple.

We all contribute to environmental decay. Even the most consciously aware. We fish, we flush, we swim, we eat, we clean, we travel, we tread, we capture, we play. We all have some part to play in the world of marine welfare and well-being. We are all responsible.

So Simple.

How can we help? Come along. Bring your colleagues, your family, your friends, your neighbours. Bring your cheque book, cash, credit card. You dont have to save them, rescue them, fight for them, nurse them, release them. Just support those who do.

Its Black and White.
